EXPERIENCE

08/2021 – Present **Infrastructure Consultant**   **Thoughtworks Germany.**

<fill out description>:

German Car Manufacturer (04/2024 – Present)

- item1
- item2
- item3

```
AWS / Github Actions / Terraform / Scala / Bash / Python script
```

German Car Manufacturer (12/2021 – 03/2024)

- item1
- item2
- item3

```
AWS / Kubernetes / Docker / GoCD / Github Actions / Terraform / Datadog
/ Bash
```

01/2020 – 01/2021 **Junior Researcher**   **FIZ Karlsruhe – Leibniz-Institut für Informationsinfrastruktur**

Full-time work in a highly agile work environment. Despite being a student, I took part in real software development early on and substantially contributed to different parts of the company throughout my studies. Highlights include:

- Research on hate speech detection and migration prediction
- Statistical and linguistic analysis of textual social media data
- Creation of a corpus from Twitter data to analyze public opinions
- Data visualization

```
Python / Pandas / Numpy / NLTK     Scikit-learn / Matplotlib / SPARQL /
Twitter API
```

EDUCATION

2014 – 2017 **M.Sc. in Computer Engineering, Software** **Imam Reza International University**
Master Thesis: Sentiment Analysis on Twitter Data using McDiarmid Tree Algorithm- Preprocessing and sentiment analysis of tweets

2008 – 2013 **B.Sc. in Computer Engineering, Hardware** **Ferdowsi University of Mashhad**
Undergraduate Thesis: A System for Scheduling University Course Timetabling- Development of a system to automatically schedule university courses using graph coloring algorithm
